

## PanBlast™ ATN-T Long Series Blast Nozzles

PanBlast™ ATN-T Long Series Blast Nozzles feature tungsten carbide inserts with durable aluminum protection jackets, and comes complete with a 3/4" (19mm) screw threads. The PanBlast™ ATN-T Long Series Blast Nozzles are designed for use with the Tornado Internal Pipe Blasting Tool to facilitate optimal positioning of the Tornado Rotating Blast Head to the inner pipe wall surface distance as follows:

ATN-5T - For internal pipe diameters ranging from 12" (300mm) to 20" (500mm)

ATN-6T - For internal pipe diameters ranging from 24" (600mm) to 36" (910mm)

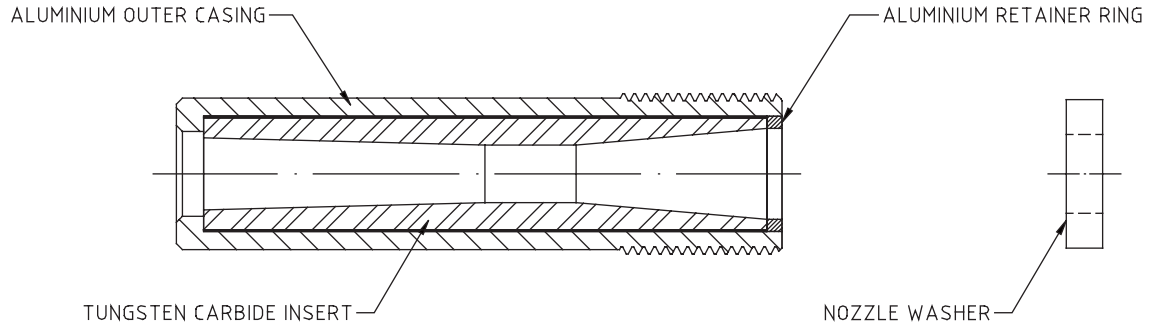

Being a straight bore nozzle, the PanBlast™ ATN-T Long Series Blast Nozzles are also suited for applications requiring concentrated blast streams and/or high impact cleaning rates.

The PanBlast™ ATN-T Long Series Blast Nozzles may also be utilized with smaller capacity blast pots, requiring only 12.5mm (1/2") I.D. blasting hose.

## PanBlast™ ATN-T Blast Nozzle Assembly -

Stock Code	Description	Orifice	Length	Weight
BAC-NZ-0478-01	Blast Nozzle ATN-5T Alum.Tungsten	Φ8mm (5/16")	75mm(3")	0.24Kg (0.93lbs)
BAC-NZ-0482-01	Blast Nozzle ATN-6T Alum.Tungsten	Φ9.5mm (3/8")	100mm(4")	0.36Kg (0.80lbs)
