

PanBlast™ Nozzle Washers

*"Surface Preparation
Is Our Business"*

The PanBlast™ Rubber Nozzle Washers are designed to be located within the nozzle holder and provide a seal between the rear face of the blast nozzle and nozzle holder. Correct sealing between the nozzle holder and blast nozzle is vital to prevent premature wear of both the nozzle and nozzle holder.

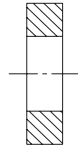

Manufactured from moulded natural rubber, all PanBlast™ nozzle washers feature a pliable yet durable hardness of 65-70 Shore.

The washers are available in four (4) different sizes, RNW-1, RNW-2, RNW-25 and RNW-32, which covers both aluminium (ANH) and nylon (NNH) type nozzle holders.

All PanBlast™ Nozzle Washers are supplied in packs of ten (10) and are suitable for use with most OEM nozzle holders available today. See overleaf for further information.

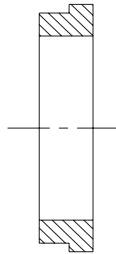

PanBlast™ Nozzle Washers -

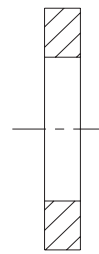

RNW - 1

RNW - 25

RNW - 32

RNW - 2

Stock Code	Description	To Suit Nozzle Holder	To Suit Hose O.D.	To Suit Nozzle Entry Size
BAC-NZ-PB-0029	RNW-1 Nozzle Washer	NNH-0 (BAC-NZ-PB-0021)	Φ28mm (1 1/8")	13mm (1/2")
		ANH-1/2 (BAC-NZ-PB-0025)	Φ34mm (1 5/16")	
BAC-NZ-PB-0030	RNW-25 Nozzle Washer	NNH-1/2 (BAC-NZ-PB-0173)		Φ38mm (1 1/2")
		NNH-1 (BAC-NZ-PB-0022)		
		NNH-2 (BAC-NZ-PB-0023)		
		NNH-3 (BAC-NZ-PB-0024)		
BAC-NZ-PB-0031	RNW-32 Nozzle Washer	NNH-1/2 (BAC-NZ-PB-0173)	Φ48mm (1 7/8")	32mm (1 1/4")
		NNH-1 (BAC-NZ-PB-0022)		
		NNH-2 (BAC-NZ-PB-0023)		
		NNH-3 (BAC-NZ-PB-0024)		
BAC-NZ-PB-0032	RNW-2 Nozzle Washer	ANH-1 (BAC-NZ-PB-0026)	Φ55mm (2 3/16")	25mm (1")
		ANH-2 (BAC-NZ-PB-0027)		

All nozzle washers are supplied in packs of ten (10) pieces.
