

PanBlast™ AirStop II NPT Remote Control Handle - Pneumatic Type

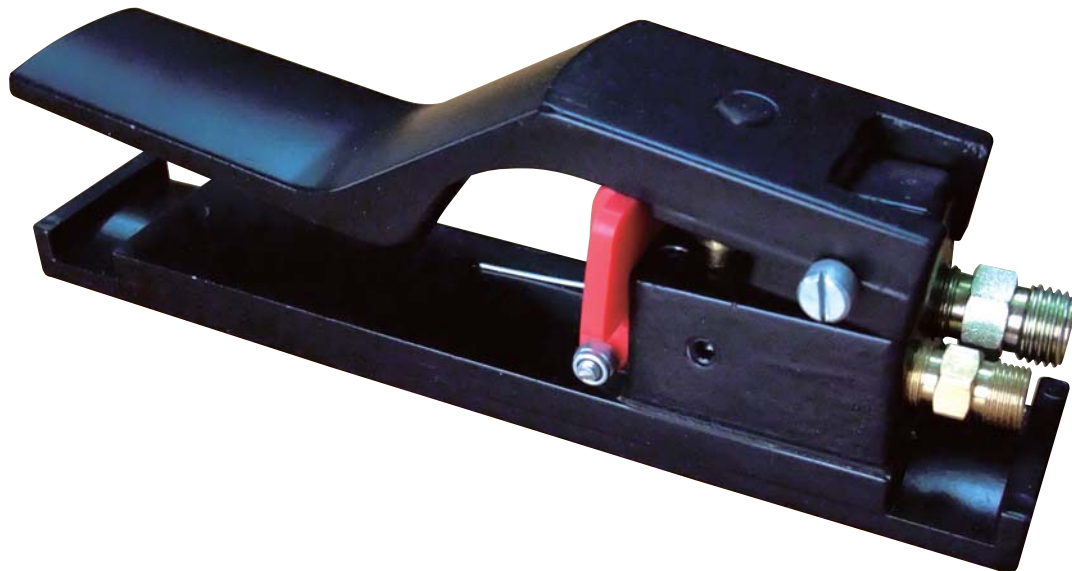

*"Surface Preparation
Is Our Business"*

PanBlast™ AirStop II NPT Pneumatic Remote Control Handle

The PanBlast™ AirStop II NPT Remote Control Handle is a robust, pneumatically operated type handle, which can be used with a wide variety of control systems.

The wide, flat style of lever, which features on the AirStop II Handle, overcomes many of the ergonomic problems which are sometimes apparent with control handles which use smaller levers.

A spring loaded safety lever lock, with a long travel, is also provided on the PanBlast™ AirStop II NPT Remote Control Handle. This style of safety lock provides a much more positive locking of the handle than other plunger type locks, which makes accidental activation of the handle far less likely.

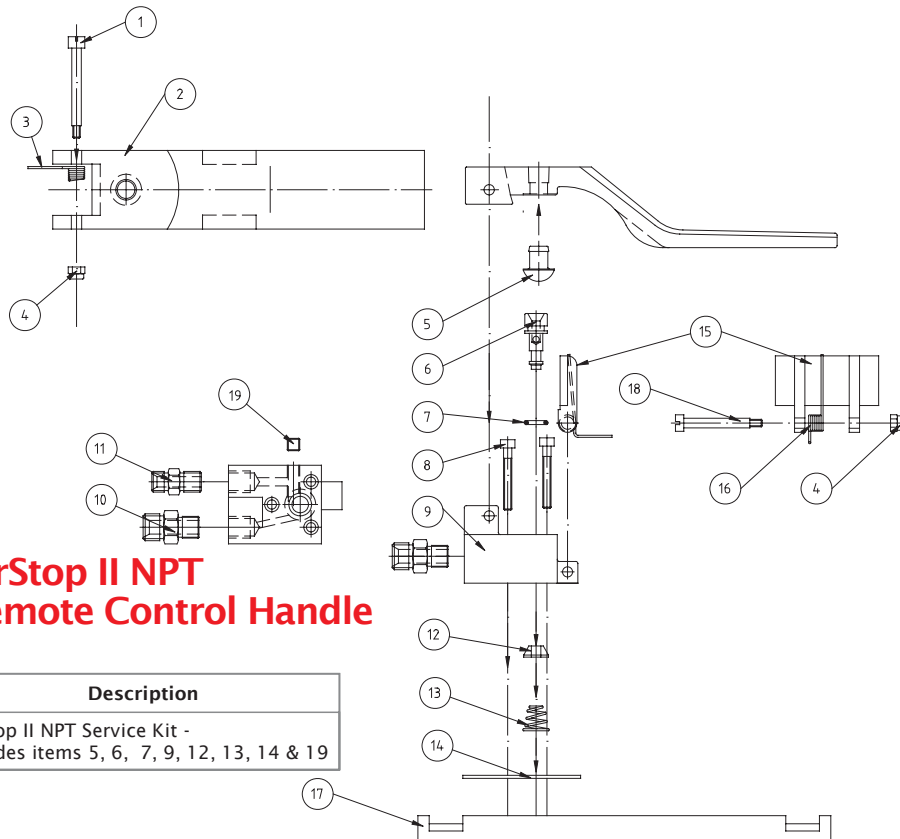

PanBlast™ AirStop II NPT Pneumatic Remote Control Handle Assembly -
