

PanBlast™ ConeBlast 1/4" Internal Pipe Blasting Tool

*"Surface Preparation
Is Our Business"*

The PanBlast™ ConeBlast 1/4" Internal Pipe Blasting Tool is designed to blast the inside surface area of pipes, in sizes ranging from 19mm (3/4") to 50mm (2") internal diameter.

The ConeBlast tools feature a built in short venturi nozzle system, combined with a tungsten carbide deflection tip, which deflects the abrasive into a 360° blast pattern as it exists the end of the ConeBlast assembly.

The PanBlast™ ConeBlast devices are available in two (2) sizes, ConeBlast 1/4" and ConeBlast 1/2".

The smaller ConeBlast 1/4" unit comes complete with a set of centring collars to centre the tool within the pipe.

The wearing parts, such as the deflection tip, stem sleeves and stem support assembly are constructed from tungsten carbide for maximum operating life.

ConeBlast 1/4"	
Minimum Pipe Diameter	19mm (3/4")
Maximum Pipe Diameter	50mm (2")
Compressed Air Requirement	135m ³ /hr (80cfm)

ConeBlast 1/4" Assembly

PanBlast™ ConeBlast 1/4" Assembly -

Stock Code	Description	Weight
