PanBlast™ Junior Plana NPT Abrasive Control Valve

The PanBlast™ Junior Plana NPT Valve is designed and manufactured to be one of the lowest profile horizontally configured metering valves for the blast cleaning industry. Configured with a ½" (12mm) port size, the Junior Plana NPT Valve is ideally suited for smaller capacity blast pots of 40 liters and below.

PanBlast™ Junior Plana NPT Valve Features & Benefits:

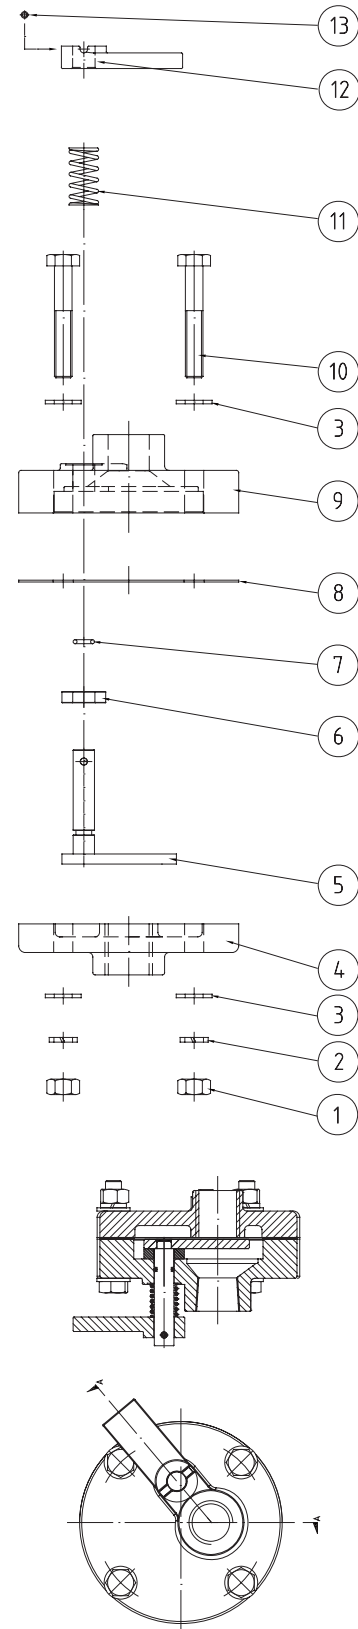

- Light weight aluminium construction of both upper and lower bodies.
- Adjustable stainless steel metering tongue and stem ensuring smooth, consistent and adjustable media flow.
- External valve surface and components are coated in a durable powder coating system providing added corrosion resistance.
