

## PanBlast™ Auto-Lok NPT Remote Control Handle - Pneumatic Type

*"Surface Preparation  
Is Our Business"*

### *PanBlast™ Auto-Lok NPT Remote Control Handle*

The PanBlast™ Auto-Lok pneumatic control handle is a non-bleed type remote handle which has been designed to efficiently activate and deactivate remote control valves as outfitted on pressure blast machines.

### *PanBlast™ Auto-Lok NPT Remote Control Handle Features and Benefits:*

- \* Incorporates a dual sealed pneumatic plunger type activation mechanism
- \* A spring loaded, side mounted safety "lock out" system preventing accidental or premature start up of the blast machine.
- \* Twin blast hose mounting clamps fitted as standard.
- \* Corrosion resistant "easy grip" contoured lever handle, eliminating operator fatigue.
- \* External remote handle body surfaces are coated in a durable powder coat providing corrosion protection.
- \* Service repair kits are stocked and readily available for after sales support.
